12. RAG Grounding Rules for Candidates

- The chatbot should retrieve relevant passages from this PDF before answering policy, facility, room, or FAQ questions.
- Answers should be grounded in the retrieved content.
- The chatbot should not invent hotel policies, amenities, prices, timings, or facilities that are not present in the PDF.
- When the PDF does not contain an answer, the chatbot should clearly state that the information is unavailable in the provided document.
- Candidates should make the source of the answer traceable where practical, for example by showing the relevant document section or citation.
- The PDF is intended as a knowledge source only. Booking availability and actual booking actions should come from the application's live backend data, not from this PDF.
